## **Interculturality and the Munchausen Effect**

**On the Need to Rethink the Speaking Subject and Community in Interaction**

**Ashley Simpson**

This book offers a conceptual intervention for Language and Intercultural Communication studies by advocating for a critical interdiscursive approach to research on interculturality. The volume addresses two interrelated theses in research on interculturality; namely, that the speaking subject in interaction reproduces the egocentrism and phonocentrism of the Munchausen Effect. This book will be of interest to scholars in intercultural communication, language education, identity theory, and philosophy of education.
