

# CRITICAL POLICY DISCOURSE ANALYSIS

**INTERNATIONAL CONFERENCE 2026**

16th, 17th, 18th June 2026

PhD pre-conference: 15th June 2026

Sheffield, UK

CPDA 2026

An international conference dedicated to the critical study of policy texts, talk, and wider discursive practices.

The conference offers a unique forum to explore how policy problems, actors, and solutions are discursively constructed; how power, ideology, and inequality are reproduced, normalised, or resisted in policy discourse; and how policy texts are embedded in wider socio-economic and political dynamics.

We particularly welcome contributions engaging with CPDA, but also with related approaches in critical policy analysis, interpretive policy analysis, and cultural political economy, across any policy sector or geographical context.
